Add Detergent, Close the Door and Set the Program

Load the clothes to be washed in the drum and close the door. Add the detergent into the relevant compartments for the type of program you are going to select, Add detergent as described in **Detergent and Additives** section of **User's Operation Manual**.

1. Turn on the power.
2. Spin program selection button to required program, "off" must be passed through if pointer's initial position is not "off ",start up.
3. Select washing temperature, spin speed by pressing "Temp", "Spin" buttons.
4. Press "Options" button to select additional functions.
5. After starting the program, display window displays program length (hours: minutes) and additional function options in sequence.

Addition function selection

At standby state, press "Options" button to select additional function for current program. Select only one function for each press, and then corresponding icon flashes. After starting up, program cannot be changed.

Pre-wash

·Select the function to conduct pre-wash so as to enhance washing effects and better remove stains. This function is suitable for heavy dirt clothes.
·Before inflowing, laundry detergent/ washing powder can be added to pre-wash box, and washing powder must be added to main wash box.

Extra Rinse

After set the function of rinsing adding, the program runs the rinsing process once again before running the softening, and the total running time of the program increases accordingly.

Intensive

The function can be selected to prolong washing time, strengthen washing effects and better remove stain.

Inlet water warning

If tap is not opened, or water pressure is over low, display screen will prompt "F01" to give alarm.

Drainage warning

If the pipe is squeezed, drainage will not be smooth. In case of failing to completely drain for long time, display screen will prompt "F03" to give alarm.

Door Lock Icon 🔒

After the program starts the Door Lock icon will light up and the door will be locked.
·After completing program, door lock unlocks automatically. During pause, if door opening condition can be met halfway, the door lock will unlock and its indicator light will go out.
·When door lock indicator light flashes, door shall not be opened forcibly so as to avoid personal injury.

Delay End Function 🕐

Delay end function allows to run the machine at the consumers' convenience, for example, at night when electricity is cheaper.
•Only under the standby mode, this button is valid for selecting the reservation time.
•After the reservation function is selected, the time will increase 1h when each time the reservation button is pressed. Before reservation, if the program time does not satisfy the integral multiple of 1h, it shall be completed by pressing the reservation key for the first time, and then the time increases 1h when each time the reservation button is pressed. If the reservation is selected, before the program runs, the current reservation can be canceled by turning the button to select other programs.

•The delay time must be longer than the wash program length as the delay time is the time program will finish. For example: if the selected program time is 02:28, the delay time selected must be between 03:00 and 24:00.
•When the reservation process is operated, the icon of 'reservation time' will be on. When the reservation process is finished, the icon of 'reservation time' will be off, while the icon of the 'remaining time' will be on.

Favourite

After selecting the program and setting each parameter and starting, long press the Favorite key for 3s to memorize the selected program, temperature, rotational speed and other related settings, and then the Favorite symbol lamp will be on.
Under the circumstance that the Favorite lamp is not on, short press the Favorite key, then the program will be switched to the program memorized last time; and meantime, the temperature, rotational speed and other parameters will automatically change into the parameters memorized last time.
At this moment, if switching the program or pressing other keys, the panel will display a new program and parameters, and the Favorite symbol lamp will be off.
When the user uses it for the first time, if he/she has never long pressed the Favorite key to collect programs, he/she can short press the Favorite key and then the cotton linen program and its default settings will be collected by default.

Mute Function 🔇

When the machine is in the state of holding, pause or operation, press "Spin+ Favourite" buttons for 2 seconds, The display will show mute function fault icon. All the buzzing will be turned off except the alarms.

When the machine is in the mute state, press "Spin+ Favourite" buttons for 2 seconds until mute function fault icon light off. All the buzzing will be activated.

Automatic weighting

Washing machine displays "----" after startup, indicating that it is weighing automatically. It will adjust program length (hours: minutes) automatically according to weight of clothes.

Child Lock ⊖

To strengthen the safety of children, this machine is equipped with Child Lock function.
When the programme starts, press "Temp. +Spin" button for 2 seconds. Child Lock icon will light up, and then Child Lock is set up. Repeat the same operation, the Child Lock will be released.
•When the Child Lock is set, all function buttons will be shielded.
•When you turn the machine off by rotating the program selection button"Off",child lock is released.
•After completing program, child lock will automatically unlock.

To Start the Program

After you have selected your options and placed detergent within the detergent dispenser, turn on the water tap and press the "Start / Pause" button. The screen will display the current program progression with icons from left to right. It also displays the remaining program time.

To Cancel the Program or Reselect the Options

1. Rotate the program to "Off" for 3 seconds to turn off the machine.
2. Select the new program and options.
3. Press "Start / Pause" button to turn on the machine without adding any extra detergent.
End of the Program

When programme finished its running, it will display "End". If no operation is taken in 2 minutes, the machine will turn off automatically.
1. Rotate the program to "Off" to turn off the machine;
2. Close the tap;
3. Open the door and take the washed clothes out;
4. Slightly open the door to remove moisture in the pump.

Reload in Process 👕

If you want to reload clothes in the process of washing, please press "Start/Pause" button.
•If reload icon 👕 lights up, the door can be opened in the process, remaining time and the Door Lock icon in display will flash. Then the Door Lock icon will go out, and the door can be opened.
•If reload icon 👕 doesn't light up, the Door Lock icon doesn't flash, it indicates that current temperature is over 50℃ or you have passed the time for reloading in the process, namely no clothes allowed to load into the machine.

Fault codes

• This clothes washer is equipped with automatic detection of operational errors and malfunctions.
• A fault code that identifies the problem will appear on the control panel to notify users. Please refer to page 20 of the User Manual for information on fault codes.
